Availability: Part-time (immediately) or full time internship (May 2021-September 2021)

EDUCATION

Singapore University of Technology and Design (SUTD) | May 2019 - Present

- Pursuing Bachelor of Engineering (Computer Science)
- Global Distinguished Scholarship Awardee (Awarded to top 10% of cohort) with cumulative GPA of 3.960
- Expected Date of Graduation: August 2022

WORK EXPERIENCES

National Youth Council, UX Design Intern | May – September 2020

- Used Figma to design a high-fidelity prototype of a web application named On My Way aimed to help youths easily obtain resources related to career choices in Singapore.
- Worked with a team of 10 other interns to implement design thinking frameworks such as user personas and double diamond framework to discover pain points our web application will address.
- Co-organised a mini weeklong design sprint to brainstorm ideas and solutions to implement in our web application
- Conducted user testing, market research and extensive interviews to ensure our web application appropriately solves the pain points

PROJECTS

RENEWALL, Group Leader | August - December 2019

- Coordinated and delegated work to group members to ensure project's deliverables are met, within the speculated time.
- Used Adobe Illustrator to design posters and information booklets that succinctly described our product in a vibrant and engaging manner.

Portfolio Website

- Developed a portfolio website from scratch using HTML5, CSS3 and JavaScript, learning from online video tutorials. Website is live and monitored with Google Analytics.
- Implemented UI/UX design principles to make the website vibrant and user-friendly.

General Knowledge Quiz

- Developed a quiz using HTML, CSS, JavaScript and public API to design a simple web quiz that generates 3 random questions and tracks the user's score.

CO-CURRICULAR ACTIVITIES

Diving Club, President | August 2019 - Present

- Planned, organized and publicised 3 day 2 night diving trips to Tioman, Malaysia for a group of 20-30 people with external organizer (Blue Reef Scuba) to learn Scuba Diving.
- Created videos of the diving trips using self-recorded footage and video-editing software Davinci Resolve for the purpose of marketing future trips.
- Facilitated the diving trips by accounting for attendance and guaranteeing the safety and wellbeing of the participants.

ROOT Student Government, Director of Finance | Sept 2019 - Present

- Planned and organized the first successful physical freshman orientation camp for 400 incoming SUTD students, despite new COVID-19 restrictions and tight timeline leading up to the camp.
- In charge of accounting and delegating the expenses of the camp, including the participants, student helpers, and necessary props within the budget of \$30,000.

OCIP, Organizer | Jan – Mar 2019 | Nepal, Singapore

- Planned and organized English curriculum for a partner school in Nepal with a team of 10, consulting with appropriate representatives from Nepal.
- Designed and coordinated printing and selling of over 400 units of sticker merchandise, raising over \$2000 in funds to supplement the trip in 2 weeks.
- Able to adapt and modify our plans based on feedback obtained quickly and effectively in order to maximise engagement of children while at the school.

SKILLS

- Proficient in speaking and writing English and Chinese
- Softwares: DaVinci Resolve, Adobe Illustrator, Figma
- Programming Languages: Python, Java, HTML5, CSS3, JavaScript
- Microsoft Office (Word, PowerPoint, Excel)
- Ability to work in an organized and timely manner
- Can work well in teams or in independent setting
- Detail orientated
